

2015 SILVERADO HIGH COUNTRY

CREW CAB WITH 5' 8" BOX

Silverado was named the 2014 North American Truck of the Year

BUILT AT: Silao, Mexico and Flint, Mich. (crew cab)
EPA VEHICLE CLASS: Full-size Truck

NEW FOR 2015

- Hydra-Matic 8L90 eight-speed automatic transmission (6.2L V-8 models)
- 12,000-pound max trailering capacity available, based on SAE J2807 Recommended Practices
- Enhanced Chevrolet MyLink with Text Messaging Alerts and Siri Eyes Free
- Available OnStar with 4G LTE and built-in Wi-Fi hotspot (3GB/three-month data trial)
- New, available up-level trailering mirrors with back-up lighting
- Spray-on bedliner now offered on all models

VEHICLE HIGHLIGHTS

- The available 6.2L EcoTec3 V-8 is the most powerful engine offered in any light-duty pickup. It seamlessly switches to four cylinders in certain conditions to improve efficiency in light-load driving
- High-strength steel makes the frames and cabs stronger and lighter – and helps Silverado deliver a 5-Star rating in the newest government crash test
- Strategic use of aluminum alloys to reduce the weight of engines, front suspension components, hoods and other parts
- A smart pickup box that's strong and durable – and features a two-tier loading design that allows customers to insert a platform to separate items during hauling or conceal valuables below, such as power tools.
- Available EZ Lift-and-Lower tailgate makes it easier to access the box
- Available Max Trailering Package includes a 9.76-inch rear axle, heavy-duty rear springs, revised shock tuning, enhanced cooling and an integrated trailer brake controller
- Driver-focused interior features ample storage, multiple power and USB connections and available high-wear cloth for bench or bucket seats

SAFETY FEATURES

- Six air bags, including head curtain side air bags
- Large rearview mirrors and standard rear-vision camera system for greater visibility and safety
- StabiliTrak stability control system with rollover mitigation technology and trailer sway control
- Available safety alert seat, forward collision alert and land departure warning
