LIEBHERR

Performance

Power for Increased Productivity

L 550

Tipping load, articulated:
12,200 kg
Bucket capacity:
3.2 m³
Operating weight:
17,700 kg
Engine output:
140 kW/191 HP

L 556

Tipping load, articulated:
13,700 kg
Bucket capacity:
3.6 m³
Operating weight:
18,400 kg
Engine output:
165 kW/224 HP

L 566

Tipping load, articulated:
15,900 kg
Bucket capacity:
4.2 m³
Operating weight:
23,900 kg
Engine output:
200 kW/272 HP

L 576

Tipping load, articulated:
17,600 kg
Bucket capacity:
4.7 m³
Operating weight:
25,700 kg
Engine output:
215 kW/292 HP

L 580

Tipping load, articulated:
19,200 kg
Bucket capacity:
5.2 m³
Operating weight:
27,650 kg
Engine output:
230 kW/313 HP

L 586

Tipping load, articulated:
21,600 kg
Bucket capacity:
6.0 m³
Operating weight:
32,600 kg
Engine output:
260 kW/354 HP

Performance

Power for Increased Productivity

The innovative Liebherr XPower® driveline considerably increases working efficiency. Quick working cycles, high tipping loads and high machine availability lead to increased handling capacity.

Powerful and Efficient Drive Concept

Highest Level of Performance
The Liebherr XPower® driveline brings together the hydrostatic and mechanical drive. The interaction between these two different drives is continuously adjusted automatically to the given application. As a result, XPower® offers the optimal level of efficiency during material loading and transport, as well as providing maximum acceleration and performance along all loading cycles – including long routes. All components are also ideally adapted to each other. XPower® stands for maximum efficiency.

Continuously Variable Transmission
The Liebherr XPower® driveline allows continuous regulation of acceleration in all speed ranges, without noticeable gear shifting or interruption in tractive force. Powerful working and high driving comfort increase your productivity.

High Handling Capacity
Unnecessary counterweight can be avoided through the unique component mounting position at the rear of the machine. Ideal weight distribution results in high tipping loads and greater handling capacity per hour of operation.

The Liebherr XPower® travel drive accelerates quickly, allowing high travel speeds. Time savings can be made on flat terrain, as well as on inclines. As a result, there are considerable gains in productivity.

Flexibility and Versatility

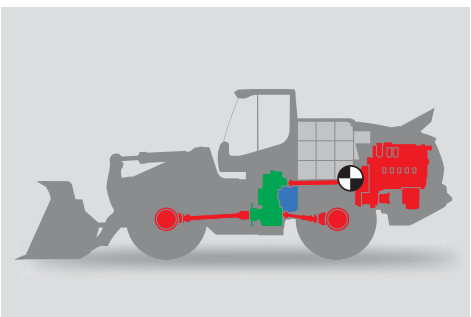
Lift Arm Variants Optimised for the Application
The standard Z-bar linkage provides a large torque in the lower region of the lift arm. The ideal prerequisite for conventional wheel loader applications – simple, quick filling of the bucket leads to high handling capacity.

An alternative is available in the form of the industrial lift arm for L 550 – L 566 and L 580 wheel loaders at no extra charge. The industrial lift arm boasts a parallel guide arrangement and especially high torque in the upper lifting range. The best solution for industrial use as it allows large attachments to be fitted for transporting heavy loads.

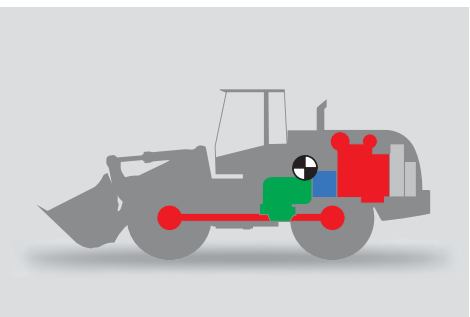
Optimal Bucket Filling
The new sturdy bucket design from Liebherr allows the bucket to be filled quickly and efficiently. Fully filled attachments increase productivity. The bucket's good penetration and simple filling mechanism result in lower fuel consumption.

Wide Range of Applications
The wide range of attachments means the right tool is always to hand. As a result, a multitude of uses can easily be covered. This increases utilisation of the machine and raises productivity. Liebherr wheel loaders can manoeuvre quickly and efficiently thanks to their compact design – the best choice for high handling capacity.

Liebherr XPower® Driveline L 550 – L 586
- Future-proof driveline for powerful uses
- Optimum weight distribution due to its unique component mounting position
- Ideal visibility due to to its compact design



Conventional Travel Gear
- Centre of gravity in the middle of the machine
- Additional ballast is needed to increase the tipping load and improve stability
- Poor visibility is the result



An all-purpose Loader
The option to choose between industrial lift arm and Z-bar linkage means the right machine is always available for the use specifically required by the customer.

Economy

Minimum Costs at High Handling Capacity

Liebherr wheel loaders make a reliable contribution to commercial success. The fuel efficient drive concept reduces operating costs and environmental impact at maximum handling capacity.

Low Operating Costs

Lower Fuel Consumption
The Liebherr XPower® driveline with Liebherr Power Efficiency (LPE) achieves a reduction in fuel consumption of up to 30%. At highest efficiency this reduces operating costs and increases profitability.

Hardly Any Brake Wear
The Liebherr XPower® travel drive brakes automatically. The service brake only acts as a support and is therefore subject to hardly any wear.

Minimal Tyre Wear
Its continuous traction control, combined with automatic self-locking differential, prevents wheelspin. Productivity is increased and tyre wear reduced by up to 25%.

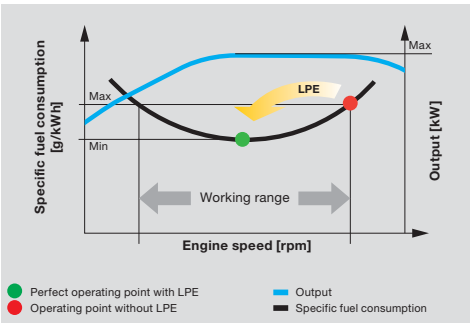
Save Costs and Protect the Environment

Innovative Exhaust After-Treatment
The Liebherr SCR system is an efficient system for the after-treatment of exhaust gases. Consumables around the engine, such as diesel particle filters, are not required. Regeneration is no longer necessary and maintenance is reduced. Higher productivity provide fuel savings and a reduction in operating costs.

Economical Use of Resources
The lower fuel consumption and efficient exhaust after-treatment cut emissions. This actively saves resources. While actively protecting the environment, Liebherr wheel loaders reduce operating costs.

LiDAT

Efficient Management
LiDAT, Liebherr's own data transmission and positioning system, facilitates efficient management, monitoring and control of the entire fleet park in terms of machinery data recording, data analysis, fleet park management and service. All of the important machinery data can be viewed at any time in a web browser. LiDAT offers you comprehensive work deployment documentation, greater availability thanks to shorter downtimes, faster support from the manufacturer, quicker detection of strain/overload and subsequently a longer service life of the machine as well as greater planning efficiency in your company. This service includes 1 year of use free of charge as standard for the L 550 XPower® – L 586 XPower® wheel loaders.



Low Fuel Consumption Thanks to Intelligent Machine Control
- Liebherr Power Efficiency (LPE) optimises the interaction between diesel engine, gearbox and working hydraulics for maximum efficiency.
- LPE – maximum performance from every drop of fuel

Reduced Brake Wear
- Hardly any brake wear due to hydraulic braking action of the driveline.

Reduced Tyre Wear
- Continuous traction control prevents the wheels from spinning.

Always Be Informed with LiDAT
- Evaluation of machine usage and fuel consumption for economic machine management
- LiDAT comes as standard incl. 1 year free-of-charge use

Reliability

Ruggedness and Quality for Durable Machines

Liebherr wheel loaders provide maximum performance even under the toughest of operating conditions. Specially-developed components, sophisticated technology and high quality offer a high level of reliability and availability.

OEM Quality Components

Durable and Powerful
Liebherr has many decades of experience in the development, construction and production of components. Ideally adapted to each other, they guarantee a high degree of performance and reliability. Liebherr also develops and produces all steel components. These rugged components ensure the long life of the wheel loaders.

Intensive endurance tests attest to the strength and quality of the components in use. Even under the toughest of usage conditions, Liebherr wheel loaders satisfy Liebherr's stringent quality standards. This ensures reliable use throughout the entire life time of the machine. Consistently powerful machines increase productivity.

High Safe and Versatile Usage

Wear-Free Drive Concept
The components of the Liebherr XPower® driveline are extremely rugged and low-wear. The variable distribution of forces between the hydrostatic and mechanical drive also leads to reduced loads on the drive path. XPower® ensures a long machine life and reliability in use.

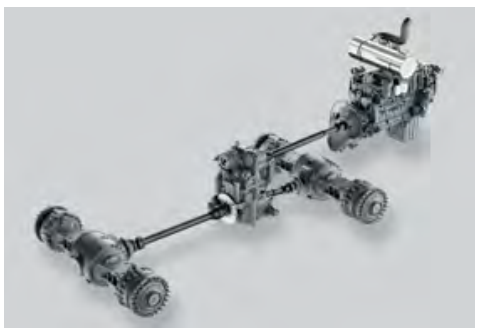
Continuous Use
Thanks to Liebherr's unique SCR system, fewer components – such as diesel particle filters or exhaust gas recirculation – are needed at the engine. This minimises the risk of failure and reduces maintenance expense. This sophisticated technology ensures efficient, continuous work.

Reliable Cooling System

Optimal Cooling Performance
The cooling system is fitted directly behind the operator's cab and is thus able to take in air which is free of dust. In especially dusty applications, optional equipment such as reversible fan drive, fluff trap for the radiator and large-mesh radiator protect the cooling system from contaminants getting in. This guarantees even continuous cooling output whilst simultaneously reducing cleaning expenses. Minimal cleaning expenses mean more efficient, more cost-effective working.

Controlled Cooling
The cooling fan is driven independently from the Liebherr diesel engine and produces only the cooling air output which is actually required. Heat sensors ensure reliable control.

Powerful Liebherr's Own Components
- Ideal coordination of components to each other for maximum performance
- Maximum quality even under the toughest operating conditions
- Rugged, durable machines for reliable operations



High Machine Availability
- Reduced load on the driveline through the subdivision of forces
- High safe and versatile usage thanks to rugged, low-wear components
- Fewer components around the engine mean reduced risk of failure

Intelligent Cooling System
- Cooling position on the cleanest position of the wheel loader
- High machine availability thanks to lower radiator contamination
- Controlled cooling through thermostatic control for reliable operations

Comfort

Maximum Operator Comfort for More Productivity

The cab design is optimally adapted to the operator's day-to-day requirements. The roomy and ergonomic operator's cab offers perfect conditions for comfortable and productive work.

Clearly Arranged Cab

Productive and Safe Working
The modern, ergonomic cab design allows the operator to work with high concentration without fatigue – this increases safety and productivity. The displays, controls and operator's seat are carefully coordinated to form an ergonomic unit. The optional laterally-sprung operator's seat offers high seating comfort and relaxed working.

Perfect Visibility
The generous glass surfaces of the cab offer exceptional all-round visibility of the attachment and working area. The design of the engine hood which has been optimised for viewing provides ideal viewing towards the rear as well as monitoring behind the machine from the Liebherr display. This ensures maximum safety for people, the machine and the load, whilst increasing productivity at the same time.

Well-Being Guaranteed
Optimum storage areas and stowage spaces and built-in cool-box increase operator well-being. With air conditioning as standard, the improved cooling output ensures a pleasant working atmosphere. This gives the operator maximum comfort and high productivity.

The optional Liebherr key with remote control opens the operator's doors automatically and turns on the lights – for safe and comfortable start-up of the machine.

Simple and Intuitive Operation

Ergonomic Controls
The operating and control instruments are well laid out and user-friendly. All operation-relevant data can be recorded quickly and efficiently. The high operating comfort allows the operator to work particularly efficiently and safely.

Liebherr Control Lever
The Liebherr control lever, which is built into the operator's seat as standard, allows all working and manoeuvring operations to be performed with a high degree of precision and sensitivity. The new electrical-hydraulics system allows the operator to programme the lift arm and bucket positions from the cab.

The Liebherr control lever with mini-joystick is optionally available. The purpose of the mini-joystick is the proportional control of hydraulic attachment tools. The hydraulic attachment can be controlled with great sensitivity and very ergonomically.

Touchscreen Display
The adjustable touchscreen display, which comes as standard, allows all operating-relevant machine data to be viewed and configured quickly. Visual and acoustic warning devices ensure high operational reliability.

Exceptional All-Round Visibility
- Unobstructed visibility in all directions through optimal cab and engine bonnet design
- Generous glass surfaces
- More safety and productivity thanks to exceptional visibility

Liebherr Control Lever with Mini-Joystick (optional)
- Ergonomic and comfortable operation
- Control all driving and operating manoeuvres with a single control lever
- Comfortably programme the hydraulic control from the operator's cab

Intuitive Controls
- Quick recoding of operation-relevant machine data
- Ease of controls increases working efficiency
- Liebherr reverse camera available as standard – built into the touchscreen display

Maintainability

Time and Cost Savings Through Simple Maintenance

The most important items in daily maintenance can be seen at a glance in the loading area of Liebherr wheel loaders. Quick and safe control saves time and money.

Exceptional Service Accessibility

Efficient and Simple Maintenance
Thanks to the unique mounting position of the components, Liebherr wheel loaders offer exceptional accessibility for service personnel. The positioning of the cooling package directly behind the operator's cab contributes to a reduction in maintenance and cleaning expenses by reducing contamination. This saves time and money.

Safe and Free Service Access
All points requiring day-to-day maintenance can be reached comfortably, safely and cleanly. Anti-slip steps and sturdy handrails provide a high degree of safety.

Short Service Times for More Productivity
The engine hood, which opens up electrically towards the rear, ensures safe, free access to the entire engine compartment. The service points are easy to see and reach. All maintenance work can be carried out comfortably and safely from a level base in the engine hood. This ensures time-saving maintenance and increases productivity.

Improved access to the windscreen and cab filter box is provided by the access on the right hand side of the machine. Sturdy hand rails and a fold-out ladder provide a high level of safety during cleaning and maintenance.

Strong Service Partner

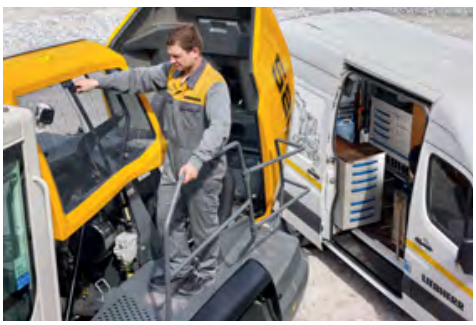
Safe Partnership with Strong Service
When buying a Liebherr wheel loader the customer not only looks to a long-lived high-end product but also a reliable longterm partnership. A service network combined with a highly-modern central warehouse is available for optimum service and quick replacement part provision. This guarantees short routes and rapid support in the event of service. Round-the-clock if required.

Competent Liebherr Service Offers Maximum Reliability
Comprehensive knowhow ensures a first-class execution of all service and maintenance work. This contributes decisively to the availability and profitability of your machine. Employees at Liebherr service partners are trained on an ongoing basis. They have extensive knowledge of quick and safe service performance. They can turn to the expertise of manufacturing plants at any time.

Low Maintenance
- Less contamination of the radiator thanks to its clever position behind the operator's cab
- Quick and safe control saves time and money

Optimum Service Accessibility
- The entire engine compartment is accessible via just one enclosure
- The most important fill levels can be seen in the loading area
- Short downtimes means more efficiency

Perfect Service for Optimum Machine Availability
- Quick and effective support thanks to an extensive service network
- Replacement parts service with 24-hour delivery
- Quick and reliable service carried out by qualified service specialists



Wheel Loaders L 550 XPower® – L 586 XPower® Overview

Sturdy Attachment

+ Quick working cycles
+ Long-life lift arm
+ Flexible in use
+ Efficient and cost-optimised use by specially adapted lift arm variants

✓ High-quality hydraulic components
✓ Strong steel construction
✓ Wide range of attachments
✓ Industrial lift arm and Z-bar linkage optional

Powerful and Efficient Liebherr XPower® Driveline

+ Fuel saving of up to 30%
+ High performance
+ High safe and versatile usage
+ Maximum productivity by high tipping load
+ Tyre wear reduced by up to 25%
+ Practically no brake wear
+ Maximum stability and safety on all terrains

✓ Drive components optimally suited to each other by LPE
✓ Powerful load-sharing driveline
✓ Rugged and durable driveline
✓ Ideal weight distribution by intelligent arrangement of drive components
✓ Continuous tractive force prevents wheelspin
✓ Self-locking hydraulic brake system

Comfortable Operator's Cab

+ Increased performance and productivity
+ Focused operator work is supported
+ Easy and safe operation
+ Excellent all-round visibility

✓ New, modern and ergonomic cab design
✓ Control of working and travel functions with one control lever
✓ Generous glass surfaces

Intelligent Cooling System

+ Constant and reliable cooling
+ Increased service life of components
+ High machine availability through minimal cleaning expenses

✓ Controlled cooling
✓ Heat sensors ensure reliable control
✓ The radiator is installed at the cleanest position of the wheel loader, directly behind the operator's cab

Optimum Service Accessibility

+ Time savings in daily maintenance
+ Short service times for more productivity

✓ Rapid control of the most important maintenance points in the access area
✓ Safe, simple and quick access to all points important for operations

Technical Data

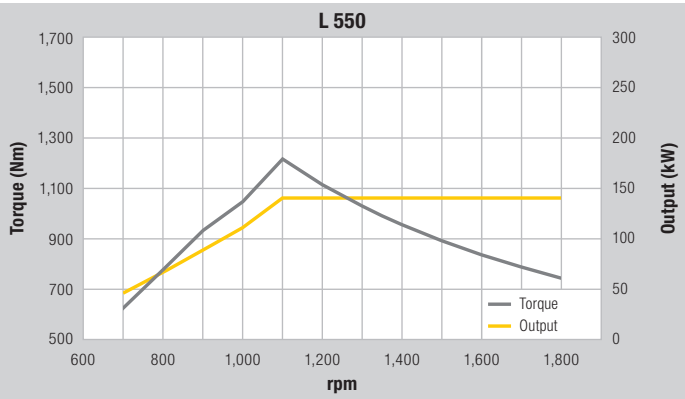
Engine

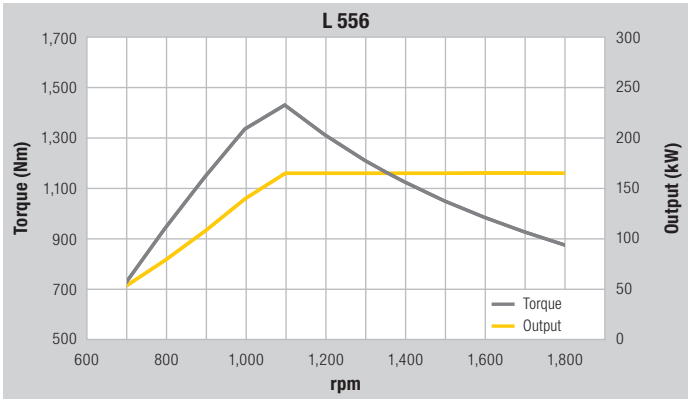
		L 550	L 556
Diesel engine		D934 A7	D944 A7
Design		Water-cooled in-series engine with charge-air cooling, exhaust after-treatment through Liebherr SCR technology, closed diesel particle filter system optional	
Cylinder inline		4	4
Fuel injection process		Electronic Common Rail high-pressure injection	
Max. gross output			
to ISO 3046	kW/HP	143/195	168/228
and SAE J1995	at RPM	1,100 – 1,800	1,100 – 1,800
Max. net output			
to ISO 9249	kW/HP	140/191	165/224
and SAE J1349	at RPM	1,100 – 1,800	1,100 – 1,800
Max. net torque			
to ISO 9249	Nm	1,215	1,430
and SAE J1349	at RPM	1,100	1,100
Displacement	litres	7.014	7.964
Bore/Stroke	mm	122/150	130/150
Air cleaner system		Dry type filter with main and safety element, pre-cleaner, service indicator on the Liebherr display	
Electrical system			
Operating voltage	V	24	24
Battery	Ah	2 x 180	2 x 180
Alternator	V/A	28/140	28/140
Starter	V/kW	24/7.8	24/7.8

The exhaust emissions are below the limits in stage IV/Tier 4f.

Driveline

Continuous hydraulic load-sharing XPower® driveline	
Design	Continuous, fully-automatic XPower® driveline. No traction interruptions across the entire speed range. Hydrostatic load-sharing with two axial piston units. Identical driving performance – forwards and in reverse
Filtration	Filter system for driveline, depend on working hydraulics
Control	Driveline is controlled from travel pedal for tractive force and speed setting with integrated inch function. The Liebherr control lever is used to control forward and reverse travel
Travel speed range	0 – 40 km/h forward and reverse, fully-automatic Speed restriction available upon request. Speeds quoted apply with the tyres indicated as standard on loader model.





Axles

		L 550	L 556
Four-wheel drive			
Front axle		Fixed	
Rear axle		Centre pivot, with 13° oscillating angle to each side	
Height of obstacles which can be driven over	mm	460	442
		with all four wheels remaining in contact with the ground	
Differentials		Automatic limited-slip differentials	
Reduction gear		Planetary final drive in wheel hubs	
Track width		2,003 mm with all types of tyres	

Brakes

Wear-free service brake	Self-locking of the XPower® driveline (acting on all four wheels) and additional pump-accumulator brake system with wet multi-disc brakes (two separate brake circuits)
Parking brake	Electro-hydraulically actuated spring-loaded disc brake system on the transmission

The braking system meets the requirements of the EC guidelines 71/320.

Steering

Design	"Load-sensing" swash plate type variable flow pump with pressure cut-off and flow control. Central pivot with two double-acting, damped steering cylinders
Angle of articulation	40° to each side
Emergency steering	Electro-hydraulic emergency steering system

Attachment Hydraulics

		L 550	L 556
Design		"Load-sensing" swash plate type variable flow pump with output and flow control, and pressure cut-off in the control block	
Cooling		Hydraulic oil cooling using thermostatically controlled fan and oil cooler	
Filtration		Return line filter in the hydraulic reservoir	
Control		Liebherr control lever, electro-hydraulically operated	
Lift circuit		Lifting, neutral, lowering Automatic hoist kick-out and lowering shut-down by Liebherr control lever Float position controlled by Liebherr control lever	
Tilt circuit		Tilt back, neutral, dump Automatic bucket return for tilting back and dumping controlled by Liebherr control lever	
Max. flow	l/min.	234	234
Max. pressure			
Z-bar linkage	bar	330	360
Industrial lift arm	bar	350	380

Attachment

		L 550		L 556	
Geometry variants					
Optional		Powerful Z-bar linkage with tilt cylinder and cast steel cross-tube			
		Industrial lift arm with tilt cylinder, hydraulic quick hitch as standard			
Bearings		Sealed			
Cycle time at nominal load		ZK	IND	ZK	IND
Lifting	s	5.5	5.5	5.5	5.5
Dumping	s	2.3	3.5	2.3	3.5
Lowering (empty)	s	2.7	2.7	2.7	2.7

Operator's Cab

Design	Hydraulically mounted, noise-proof cab ROPS roll over protection per EN ISO 3471/EN 474-1 FOPS falling objects protection per EN ISO 3449/ EN 474-1, Cat. II Operator's door with sliding side window, sliding side window on right, front windscreen made of compound safety glass, green tinted as standard, side panels with single-pane safety glass ESG, heated rear window ESG. 3 way continuous adjustable steering column
Liebherr operator's seat	6 way adjustable, vibration-damped operator's seat "Comfort" with seat, depth and incline adjustment as standard (air-cushioned with seat heating adjustable to operator's weight), Liebherr control lever mounted into the operator's seat as standard
Cab heating and ventilation	4-zone air conditioning with new improved cooling output as standard, all filters are easy to access and replaceable

Noise Emission

	L 550	L 556
ISO 6396		
L_{pA} (inside cab)	68 dB(A)	68 dB(A)
2000/14/EG		
L_{WA} (surround noise)	104 dB(A)	104 dB(A)

Capacities

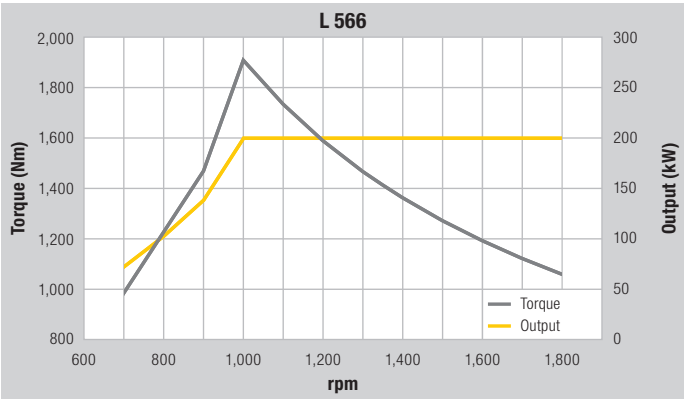
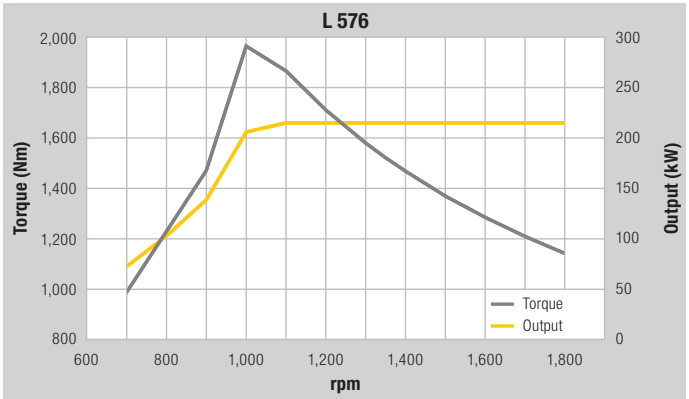
Alternator	V/A	28/140	28/140	28/140	28/140
Starter	V/kW	24/7.8	24/7.8	24/7.8	24/7.8

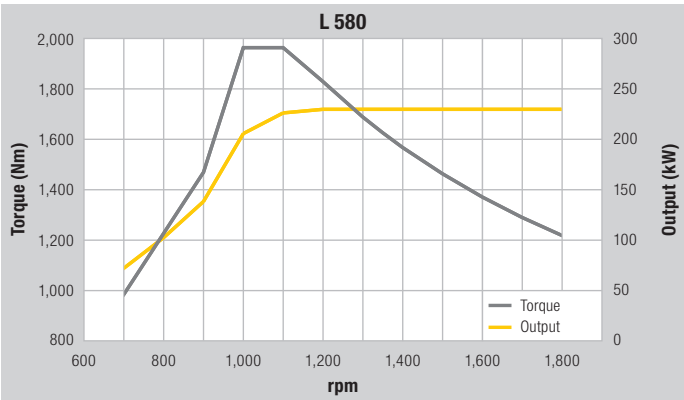
The exhaust emissions are below the limits in stage IV / Tier 4f.

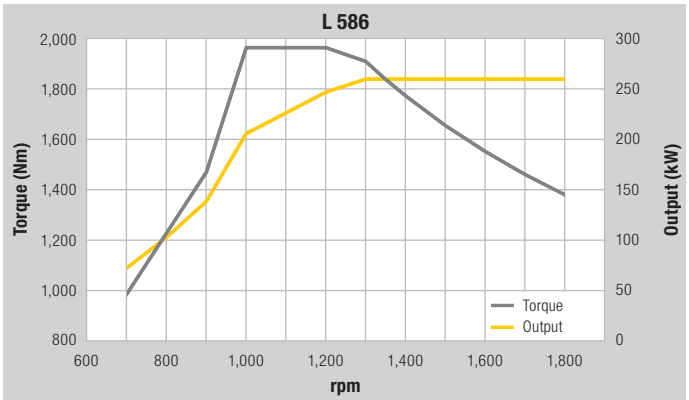
Driveline

Continuous hydraulic load-sharing XPower® driveline	
Design	Continuous, fully-automatic XPower® driveline. No traction interruptions across the entire speed range. Hydrostatic load-sharing with two axial piston units. Identical driving performance – forwards and in reverse
Filtration	Filter system for driveline, depend on working hydraulics
Control	Driveline is controlled from travel pedal for tractive force and speed setting with integrated inch function. The Liebherr control lever is used to control forward and reverse travel
Travel speed range	L 566 – L 580: 0 – 40 km/h forward and reverse, fully-automatic L 586: 0 – 33 km/h forward and reverse, fully-automatic Speed restriction available upon request. Speeds quoted apply with the tyres indicated as standard on loader model.









Axles

		L 566	L 576	L 580	L 586
Four-wheel drive					
Front axle		Fixed			
Rear axle		Centre pivot, with 13° oscillating angle to each side			
Height of obstacles which can be driven over	mm	492	473	473	523
		with all four wheels remaining in contact with the ground			
Differentials		Automatic limited-slip differentials			
Reduction gear		Planetary final drive in wheel hubs			
Track width		2,230 mm with all types of tyres (L 566, L 576, L 580) 2,440 mm with all types of tyres (L 586)			

Brakes

Wear-free service brake	Self-locking of the XPower® driveline (acting on all four wheels) and additional pump-accumulator brake system with wet multi-disc brakes (two separate brake circuits)
Parking brake	Electro-hydraulically actuated spring-loaded disc brake system on the transmission

The braking system meets the requirements of the EC guidelines 71/320.

Steering

Design	"Load-sensing" swash plate type variable flow pump with pressure cut-off and flow control. Central pivot with two double-acting, damped steering cylinders
Angle of articulation	40° to each side (L 566, L 576, L 580) 37° to each side (L 586)
Emergency steering	Electro-hydraulic emergency steering system

Attachment Hydraulics

		L 566	L 576	L 580	L 586
Design		"Load-sensing" swash plate type variable flow pump with output and flow control, and pressure cut-off in the control block			
Cooling		Hydraulic oil cooling using thermostatically controlled fan and oil cooler			
Filtration		Return line filter in the hydraulic reservoir			
Control		Liebherr control lever, electro-hydraulically operated			
Lift circuit		Lifting, neutral, lowering Automatic hoist kick-out and lowering shut-down by Liebherr control lever Float position controlled by Liebherr control lever			
Tilt circuit		Tilt back, neutral, dump Automatic bucket return for tilting back and dumping controlled by Liebherr control lever			
Max. flow	l/min.	290	290	320	410
Max. pressure

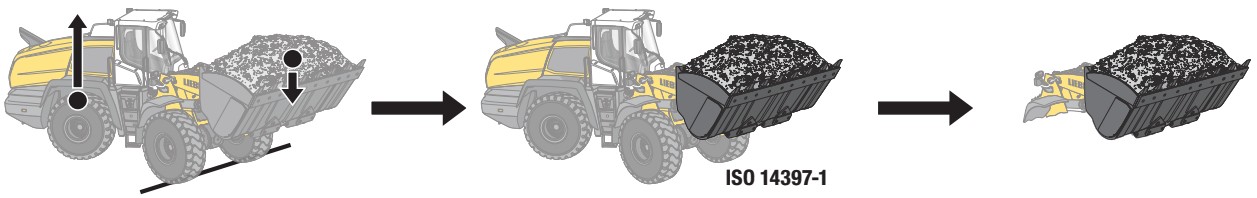
Tipping Load



What is tipping load?
Load at centre of gravity of working equipment, so that the wheel loader just begins to tip over the front axle.
This is the most unfavourable static-load position for the wheel loader. Lifting arms horizontal, wheel loader fully articulated at centre pivot.

Pay load.
The pay load must not exceed 50% of the tipping load when articulated.
This is equivalent to a static stability-margin factor of 2.0.

Bucket capacity.
The bucket volume is determined from the pay load.

$$\text{Pay load} = \frac{\text{Tipping load, articulated}}{2}$$

$$\text{Bucket capacity} = \frac{\text{Pay load (t)}}{\text{Specific bulk weight of material (t/m}^3\text{)}}$$

Equipment

Basic Wheel Loader	550	556	566	576	580	586
Crash protection, rear	+	+	+	+	+	+
Automatic central lubrication system	+	+	+	+	+	•
Battery main switch (lockable)	•	•	•	•	•	•
Diesel particle filter	+	+	+	+	+	+
Electronic tractive force regulation for difficult ground	•	•	•	•	•	•
Ride control	•	•	•	•	•	•
Parking brake	•	•	•	•	•	•
Fire extinguisher 6 kg	+	+	+	+	+	+
Fluff trap for radiator	+	+	+	+	+	+
Speed limitor 20 km/h as a factory preset	+	+	+	+	+	+
Speed limitor V_{max} adjustable key on the control unit	•	•	•	•	•	•
Carbamide box	•	•	•	•	•	•
Low temperature package	+	+	+	+	+	+
Pre-heat system for cold starting	•	•	•	•	•	•
Rear license panel light	+	+	+	+	+	+
Combined inching-braking system	•	•	•	•	•	•
Corrosion protection package for salt and fertilizer handling	+	+	+	+	+	–
Mudguard extension	+	+	+	+	+	+
Fuel pre-filter	•	•	•	•	•	•
Fuel pre-filter with pre-heating	+	+	+	+	+	+
Large-mesh radiator	+	+	+	+	+	+
Cooling water pre-heating 230 V	+	+	+	+	+	+
Multi-disc limited slip differentials in both axles	•	•	•	•	•	•
Liebherr biodegredable hydraulic oil	+	+	+	+	+	+
Reversible fan drive	+	+	+	+	+	+
Widening for mudguard	+	+	+	+	+	+
Widening for mudguard rear (in steel design) and bigger front mudguards	–	–	–	–	–	+
Headlights halogen (double design on engine hood)	•	•	•	•	•	•
Headlights LED (double design on engine hood)	+	+	+	+	+	+
Guard for headlights	+	+	+	+	+	+
Road travel counterweight	•	•	+	–	–	–
Lockable doors and engine hood	•	•	•	•	•	•
Tunnel package	+	+	+	+	–	–
Chassis protection rear	+	+	+	+	+	+
Chassis protection front	+	+	+	+	+	+
Air pre-cleaner TOP AIR	+	+	+	+	+	+
Toolbox with toolkit	•	•	•	•	•	•
Weigher unit Liebherr (integrated in display unit)	+	+	+	+	+	+
Towing hitch	•	•	•	•	•	•
Additional handrails left	•	•	•	•	•	•
Additional handrails right	+	+	+	+	+	+
Additional heating	+	+	+	+	+	+

Equipment	550	556	566	576	580	586
Working hydraulics lockout	•	•	•	•	•	•
Automatic hoist kick-out and lowering shut-down programmable	•	•	•	•	•	•
Automatic bucket return programmable	•	•	•	•	•	•
Fork carrier and pallet forks	+	+	+	+	+	+
High-dump bucket	+	+	+	+	+	+
Log grapple	+	+	+	+	+	+
High Lift arms	+	+	+	+	+	+
Industrial lift arm	+	+	+	+	+	+
Lift arm Z-bar linkage	•	•	•	•	•	•
Hydraulic quick hitch	+	+	+	+	+	+
Adjustable tipping speed	•	•	•	•	•	•
Tilt cylinder protection	+	+	+	+	+	+
Loading buckets incl. a range of cutting tools	+	+	+	+	+	+
Light material bucket	+	+	+	+	+	+
Load holding valves	+	+	+	+	+	+
Float position	•	•	•	•	•	•
Pre-fitted for use with work cage	+	+	+	+	+	+
3rd and 4th electro-hydraulic, proportional control circuit, adjustable delivery flow	+	+	+	+	+	+
3rd and 4th electro-hydraulic control circuit for continuous sweeper and snow blower operation	+	+	+	+	+	+

Operator's Cab

	550	556	566	576	580	586
Access assistance to facilitate cleaning windscreen	•	•	•	•	•	•
Exterior mirror, electrical adjustable, with heating	+	+	+	+	+	+
Exterior mirror, tiltable and adjustable	•	•	•	•	•	•
Operating hour meter (integrated in display unit)	•	•	•	•	•	•
Operating hour meter (mechanic)	+	+	+	+	+	+
Electronical theft protection with/withoug driver identification	+	+	+	+	+	+
Storage box left	•	•	•	•	•	•
Operator seat "Comfort" – air sprung with seat heating	•	•	•	•	•	•
Operator seat "Premium" – active air-suspension with seat air-condition and seat heating	+	+	+	+	+	+
Particle filter F7	•	•	•	•	•	•
Fire extinguisher in cab 2 kg	+	+	+	+	+	+
Audible horn control integrated into Liebherr control lever	+	+	+	+	+	+
Joystick steering	+	+	+	+	+	+
Floor mat	•	•	•	•	•	•
Clothes hooks (2 pieces)	•	•	•	•	•	•
Air conditioning system	•	•	•	•	•	•
Automatic air conditioning system	+	+	+	+	+	+
Cool box	+	+	+	+	+	+
3 way continuously adjustable steering column (height-adjustable, tilting, folding)	•	•	•	•	•	•
Steering stabilisation	•	•	•	•	•	•
LiDAT total use 1 year (for free)	•	•	•	•	•	•
Liebherr control lever with mini-joystick for 3rd and 4th electro-hydraulic proportional control circuit moving with operator's seat	+	+	+	+	+	+
Liebherr control lever moving with operator's seat (incl. kick down, travel direction)	•	•	•	•	•	•
Liebherr multi-lever control system moving with operator's seat (incl. kick down, travel direction)	+	+	+	+	+	+
Liebherr key (Remote Key)	+	+	+	+	+	+
Premiumdisplay (Touchscreen), with height adjustment and tilting function	•	•	•	•	•	•
Preparation for radio installation	+	+	+	+	+	+
Radio Liebherr "Comfort" (SD/USB/AUX/BLUETOOTH/ handsfree set)	+	+	+	+	+	+
Radio Liebherr "Standard" (SD/USB/AUX)	+	+	+	+	+	+

Operator's Cab

	550	556	566	576	580	586
Interior rear-view mirror	•	•	•	•	•	•
Amber beacon swiveling/fixed	+	+	+	+	+	+
Soundproof ROPS/FOPS cab	•	•	•	•	•	•
Bucket return with button integrated into Liebherr control lever	+	+	+	+	+	+
Wipe and wash system	•	•	•	•	•	•
Windscreen wiper single-sweep function with button integrated into the Liebherr control lever	+	+	+	+	+	+
Headlights rear, single design, halogen/LED	+	+	+	+	+	+
Headlights rear, double design, halogen/LED	+	+	+	+	+	+
Headlights front, double design, halogen	•	•	•	•	•	•
Headlights front, double design, LED	+	+	+	+	+	+
Sliding window left/right	•	•	•	•	•	•
Windscreen guard	+	+	+	+	+	+
Sunblind rear	+	+	+	+	+	+
Sunblind front	•	•	•	•	•	•
Power socket 12 V	•	•	•	•	•	•
First aid kit	+	+	+	+	+	+
Preparation for protective ventilation and dust filtrating device	+	+	+	+	+	+
Wide angle mirror left	+	+	+	+	+	+
Wide angle mirror right	•	•	•	•	•	•
Cigarette lighter	•	•	•	•	•	•
2-in-1 steering – changeable	+	+	+	+	+	–

Safety

	550	556	566	576	580	586
Country-specific versions	+	+	+	+	+	+
Emergency steering system	•	•	•	•	•	•
Reversing obstruction detector	+	+	+	+	+	+
Back-up alarm acoustic/visual	+	+	+	+	+	+
Rear space monitoring with camera (integrated in display unit)	•	•	•	•	•	•

• = Standard, + = Option, – = not available

The Liebherr Group of Companies

Wide Product Range
The Liebherr Group is one of the largest construction equipment manufacturers in the world. Liebherr's high-value products and services enjoy a high reputation in many other fields. The wide range includes domestic appliances, aerospace and transportation systems, machine tools and maritime cranes.

Exceptional Customer Benefit
Every product line provides a complete range of models in many different versions. With both their technical excellence and acknowledged quality, Liebherr products offer a maximum of customer benefits in practical application.

State-of-the-art Technology
To provide consistent, top quality products, Liebherr attaches great importance to each product area, its components and core technologies. Important modules and components are developed and manufactured in-house, for instance the entire drive and control technology for construction equipment.

Worldwide and Independent
Hans Liebherr founded the Liebherr family company in 1949. Since that time, the enterprise has steadily grown to a group of more than 130 companies with over 41,000 employees located on all continents. The corporate headquarters of the Group is Liebherr-International AG in Bulle, Switzerland. The Liebherr family is the sole owner of the company.
