# DRAGON ASPHALT MIXER

The **Dragon Asphalt Mixer** is the only self-contained, road-repair system that allows municipalities and contractors to transport, heat, mix, and convert **Asphalt Millings** into hot asphalt patch material while on the road. Many refer to it as a mini mobile asphalt plant. The entire system is **automated and controlled** from a central command center on the curb side of a 16 or 18 ft. trailer.

## FEATURES

- ▶ Easily use your own **MILLINGS**
- ▶ Fraction of typical market costs
- ▶ Can recycle utility cuts
- ▶ Perfect for emergency situations
- ▶ Minimal maintenance required
- ▶ Hydraulically driven and controlled
- ▶ Time controlled
- ▶ Intelligent power management system
- ▶ Tough Coat™ protected

When using our **Mixer**, you can heat **650 lbs** of material to **350°F** in less than **10 minutes**. **No runs to the asphalt plant, no material costs & no waste.** The **Mixer** can also **recycle chunks of old raw road material.**

Mobility at its finest!

**\*PERFECT WITH\***
