Departments:

Important News — Brief and to the Point

The New Business Report, each month, includes the latest ideas and innovations in supply-chain management as well as highlights on new products and services that maximize supply-chain efficiency.

Industry Focus, each month, spotlights the latest supply-chain services and products in a given industry vertical: Retail/CPG/Food; Automotive/High Tech/Electronics; and Process Manufacturing — Chemical/Pharmaceutical and others.

Global Shipping offers news in every issue from the transportation sector concerning Ocean, Air, LTL/Truckload, Rail, Ports and Hubs.

Regional Logistics, each month, showcases news of interest in Asia, Europe or Latin America.

Facility Location Planning, a special report on trends in site selection and what economic development agencies are doing to attract businesses to their cities, states and countries, appears several times a year.

Executive Education, each month, reviews upcoming conferences, seminars and business courses designed for logistics and supply-chain professionals.

The Departments in *GL&SCS* contain important news for SCM professionals — briefly, and to the point.
