TransCore® 3sixty® Freight Match | Express

powered by DAT®

Shippers Move Freight Safely and Securely

Since 1978 the most successful transportation specialists have used the DAT Network to move freight not under contract. Shippers find reliable carriers and safe trucks on the trucking industry's largest and safest spot market for freight matching.

TransCore's 3sixty Freight Match Express provides fast, easy access to "The DAT." You can post the freight you need moved and simultaneously search for trucks based on lanes, equipment type, and/or rates.

Access the trusted DAT® Network for the largest, safest load board.

The DAT Network has grown from the original truck stop load board to become the largest and most trusted online marketplace for more than 60 million truckloads and trucks per year. When your regular carriers are booked up, use the DAT to find trucks of any equipment type, in any market across the continent.

Our easy-to-use online tools help you choose your trucks wisely by providing you with carriers' DOT Authority, insurance status, and SAFERSYS scores (and CSA 2010 scores when the government implements that program) as well as information on lane rates. You'll know before you get on the phone whether a carrier is a fit for your business.

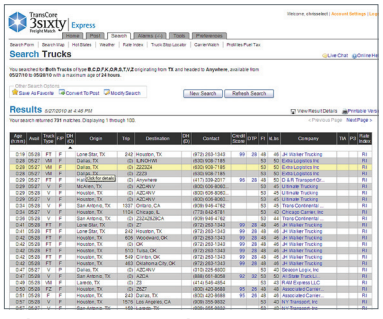

We check the credentials of every carrier.

TransCore's award-winning customer service staff screens every participant on the DAT Network. If a carrier's credentials don't check out, they can't join our network.

Powerful tools for informed decisions.

- Set an alarm and receive an email when a new load or truck matches your needs.
- Qualify carriers with a report on their current DOT-reported authority, insurance and safety scores.
- Validate rates by comparing them with our database of 12 million actual freight bills.

"3sixty Express is a great logistics support tool for our shipping department. We have been very satisfied with the carriers we found on Express."
- Eric C., Topeka, KS

3sixty Express for shippers

One click research. Get the information you need.

Truck Load Lane Rates. Get smart on rates, with Truckload Rate Index™. Check the prevailing rates for every major market in North America, and negotiate wisely to secure the best trucks.

Hot States. Understand regional supply and demand trade-offs, with state-specific load-to-truck ratios and total posting volume.

Carrier Monitoring. With CarrierWatch®, the only carrier monitoring service endorsed by the Transportation Intermediaries Association, integrated into 3sixty Express, we support your due diligence process so you can hire new carriers quickly and minimize your risk.

No hidden charges. One flat rate subscription includes unlimited access to the largest freight matching database in North America, plus a wealth of tools and data to support your logistics decision-making.
