[www.ResearchToPractice.com/Meetings/AUA2026](http://www.ResearchToPractice.com/Meetings/AUA2026)

There is no registration fee for this event. For the in-person symposium in Washington, DC, preregistration is required as seating is limited.

If you are registering a group (more than 1 person) for this symposium, please contact us at [Meetings@ResearchToPractice.com](mailto:Meetings@ResearchToPractice.com) or (800) 233-6153.

Research To Practice fully complies with the legal requirements of the ADA. If you require any physical, dietary or other accommodations, please call us at (800) 233-6153 before the event.

## About Research To Practice

Founded and led by medical oncologist Neil Love, MD, Research To Practice (RTP) has provided meaningful, relevant and unbiased educational perspectives for more than 30 years to meet the needs of oncology clinicians and positively affect the care of patients with cancer.

All of RTP's continuing education activities attempt to bridge the gap between research and patient care and assist practitioners in clinical decision-making by providing ongoing access to the opinions and perspectives of internationally recognized cancer clinical investigators. Using a variety of media and approaches, including audio and video, web/email, mobile and live formats, RTP creates truly unique CME and NCPD activities and series that are used by the majority of cancer clinicians in the United States and highly respected by others around the world.

To access RTP's extensive archive of CME and NCPD activities, please visit  
[www.ResearchToPractice.com](http://www.ResearchToPractice.com).
